## Newsletter Summer 2009

### Glow-in-the-Dark Mini Golf

You asked for it! *Glow-in-the-Dark Mini Golf* is back at Science Alive. We have chosen your favourite holes and added some fantastic extras. Enjoy our underwater scenery and don't get eaten by the shark!

Best of all, it's now free with a standard entry to Science Alive. We will also start running *Glow-in-the-Dark* birthday parties in the New Year with lots of fun activities for the kids.

### School Special

Enjoy some family entertainment and earn money for your school! We have discounted family passes available for our newsletter subscribers and each pass earns \$5 for your school.

Just bring the coupon and tell us what school you are from and we will do the rest. The passes are valid between 18 December 2009 and 2 February 2010 and cannot be used with any other offer.

### It's Electrifying

The *High Voltage* show will be starting in the school holidays. It is a companion show to our *Bright Sparks* electricity show and both will on daily.

The *High Voltage* show includes our amazing Tesla Coil and an Exploding Wire Machine. *Bright Sparks* showcases static electricity and we make some bright sparks with a Wimshurst Machine and Van de Graaff.

Please note that these shows include some dangerous equipment and parents and guardians will be expected to look after their children during the shows.

### Saturday Science

We still have some places left in the following classes in Saturday Science for Term 4.

#### Saturday 5th December

*Kites (6-8 year olds)*

Find out about aerodynamics. Use your creativity to make a kite that you can fly all summer.

*Colourful Chemistry (9-12 year olds)*

Mix up some fabulous Mad Scientist experiments with this fun chemistry class. Just don't blow up the lab!

#### Saturday 12th December

*Planes (6-8 year olds)*

Planes come in all shapes and sizes. Build a plane to your own design. Will it be fast? Will it land on water? Will it carry people? –you decide!

*Kites (9-12 year olds)*

Find out about aerodynamics. Use your creativity to make a kite that you can fly all summer.

## Birthday Parties!

Come celebrate your birthday at Science Alive!

For just \$11.50 you get:

- Admission for each person
- A balloon & packet of lollies for each child
- 2 adults free
- A booked climbing wall.

Please note there is a minimum of six children,

For an extra fee you can also add a science activity.

## Climbing Wall

Our *Climbing Wall* is currently undergoing maintenance and will be up and running before the school holidays.
