

Mercury, Venus, Earth and Mars

Sung to the Tune (Twinkle Twinkle)

Mercury, Venus, Earth and Mars,
Orbiting around a big bright star.
4 rock planets moving past,
Turning slowly, never fast.
Mercury, Venus, Earth and Mars,
Orbiting around a big bright star.

Mercury, Venus, Earth and Mars,
Orbiting around a big bright star.
2 have moons and 2 have not,
Mars is cool and Venus hot.
Mercury, Venus, Earth and Mars,
Orbiting around a big bright star.

Mercury, Venus, Earth and Mars,
Orbiting around a big bright star.
Earth has land, air, life and me,
Covered mainly by blue sea.
Mercury, Venus, Earth and Mars,
Orbiting around a big bright star.

The Sun

Mercury
